### **DESCRIPTION**

The libguide is a website available through the library system. Using the libguide allows me to present to MDC students information that they need in a day-to-day basis. This libguide has templates that we can easily adapt to what we want to showcase in the format and order that best suits our needs. A libguide <https://libraryguides.mdc.edu/> at MDC has editors assigned working with you to update and present the data based on their knowledge and expertise.

### **BIO OF PRESENTER**

**Bertha Cabrera graduated with a BAS in Supervision & Management from Miami Dade College, and a Bachelor's in Chemistry from the University of Havana, Cuba. Bertha is trained in the use of Office 365 in addition to Oracle People Soft operations and software, Nearpod, Kahoot, SparkAdobe, Weebly, Blackboard, CANVA, Zoom, Teams, Respondus, Qualtrics, Panopto, OneNote, and Jamboard. She is responsible, organized, creative, and targeted oriented. She is the Secretary of the Technology Commission with a zest for new technology trends, programs, and applications.**

# CONNECTING STUDENTS TO RESOURCES WITH LIBGUIDES

LibGuides are an instruction-oriented service provided by the Learning Resources Department.

---

**A LibGuide is a website that provides students with information on a specific topic.**

**Support a Class**

**Supplement Assignments**

**Share Information**

Some LibGuides facilitate access to a variety of information resources such as books, articles, videos, and web pages. Others serve as how-to manuals for tasks such as conducting research or citing sources.

# An Interview with Slaven Zivkovic on the 10th Anniversary of LibGuides

### Abstract

Slaven Zivkovic, an entrepreneur with a history of library innovations, headed the team that created LibGuides in 2007. LibGuides are websites that librarians and library staff design to help library users locate sources of information for a subject or a class. Zivkovic was a library assistant during his undergraduate years at Santa Clara University, the Jesuit University in Silicon Valley (Springshare, 2017). Zivkovic is also a co-founder of Docutek Information Systems, which created the industry's first electronic reserve system, ERes. He also led the development of one of the first virtual reference systems, VRLplus ("New & noteworthy" 2007).
